

Warsaw, 9.10.2018 r.

Honorary patronage

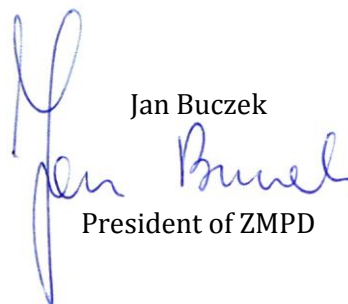

To all participants  
of the Brexit conference

On behalf of the Association of International Road Transport Carriers in Poland and the Polish International Freights Forwarders Association I would like to thank you all for your active participation in our discussions during the conference "Supply chains after Brexit. Consequences for carriers and freight forwarders" which was organized on 9<sup>th</sup> of October in Warsaw.

Leaving the European Union by the United Kingdom is a great challenge for the international transport industry. Our discussions confirmed my view that such initiatives are necessary, only 6 months left to Brexit and we still do not know what this will bring to our industry. Therefore, this is our obligation to build the awareness amongst politicians and decision makers but above that to prepare our members for coming problems and difficulties.

During the conference many topics were raised which again showed the size of the problem and the impact Brexit will have on supply chains. I hope our voice will be heard by Brexit negotiators as regards the international road transport, we provided them with valuable analysis materials.

I thank you for your time, exchange of views with representatives from business and administration, for your concerns and questions to which I hope we will soon receive replies.

  
Jan Buczek  
President of ZMPD
