

## LOCATION DRIVER FORMS

Please be informed that truck drivers entering Poland have to complete locations forms – please find them in English/ Russian and Ukrainian languages – link:  
[https://zmpd.pl/aktualnosc.php?akt\\_id=1818](https://zmpd.pl/aktualnosc.php?akt_id=1818)

The cards may be filled by driver earlier in order to accelerate and complete the border check.

There are border and sanitary checks at border crossing points. Drivers with temperature above 38 degrees will be automatically directed to medical examinations and will not be able to continue driving.

Truck traffic takes place mostly on a separate border crossing than passenger car traffic. Truck drivers, also those of vehicles under 3.5 tons performing road transport (documented on the CMR consignment note), are not directed to the mandatory quarantine. Due to the intensity of traffic, the waiting time on borders will be significantly longer. The updated border waiting time you may find on: [www.granica.gov.pl](http://www.granica.gov.pl)

## BORDERS
